ISO : 9001-2000

Know your School

Greetings to all the parents and well-wishers. Rai Saheb Bhanwar Singh Public School is run by Jai Social Research and Educational Society. The need of an English medium school with International standard was in demand of the parents of those children who were not able to get quality education and beyond high paying capacity of Fees.

It then came to the mind of Shri Indrajeet Singh Ji Bhati, a social worker who initiated the mission of setting up a school, which can cater the needs of high quality education with holistic development of the learner, at very affordable fees. He has set up the school in the name of his loving father, Shri Rai Saheb Bhanwar Singh who also happened to be a social worker

The school was established in 2005-06. Rai Saheb Bhanwar Singh Public School is also the first CBSE School in Nasrullaganj. We at Rai Saheb Bhanwar Singh Public School, believe in a learning environment, in which the teachers are key learners, committed to discovering and providing the best educational environment for each of our student.

Our program is based on the National Curriculum of India. We offer a curriculum that is broad and balanced and meets our aims. We provide each child with a high quality of education within a happy and caring community, pursuing excellence in each child.

We enable our children to identify and develop unique qualities, realize their true potential, identify and fulfill their emerging aspirations and take a full, active and constructive part in society.

Choosing the right school for your child's future

Dear Parents

Choosing the right school for your child is one of the most important decisions you will make in your life. I am delighted that you are considering Rai Saheb Bhanwar Singh Public School is a place of learning and growth for your child. An empowered individual is the one who has the knowledge, skill, desire and opportunity to succeed. Each day at Rai Saheb is spent facilitating and providing our students the tools to succeed in life.

School leadership is crucial to ensure the best quality of schooling. We choose to look at our teachers as educators and our school Principal as leader and nation builder. Our educators and school leader play a key role in creating the right organizational conditions to implement effectiveness and success.

Our comfortable educator-student ratio ensures each student gets the attention they deserve. They create a stimulating environment for our students who are an active part of the learning process. Their inherent intelligence and thought processes are instrumental in facilitating the learning process.

Lastly, I promise you that the time you are going to spend at Rai Saheb will be both a rewarding and enjoyable experience.

We're committed to quality education

Dear Parents

Welcome to Rai Saheb Bhanwar Singh Public School. Your family is about to embark on a wonderful and exciting experience. Let us work in partnership to nurture and educate your child. Success for all students is ensured by providing an enriching and structured curriculum and a focus on student's welfare.

Rai Saheb is an initiative towards creating tomorrow's world leaders, who will change this world for better living. We make sure that our students are rooted in the values of Indian culture and, yet maintain a global outlook. It is our promise to make them good and successful human beings.

Since its inception, our school has always been committed to provide high quality education that emphasizes not only to gain knowledge but also focus on the student's holistic development.

We have infrastructure of an international standard and a team of professionals to nurture the creative minds of students. We reiterate our commitment to provide a nurturing environment and every facility possible to ensure a high quality education every student deserve in today's world.

Rai Saheb : A Consistent Performer

It gives me immense pleasure to be a part of Rai Saheb Bhanwar Singh Public School, that has emerged as the first choice of parents when it comes to providing quality education to their child. The school has developed as a strong hub of learning in the last decade. When it comes to the results of board exams, school has produced successful outputs and has been producing 100% results for the past several years. School provides variety of choices to the students in its curriculum that varies from Mathematical Science, Biological Sciences, Studies of Commerce, and Humanities. Quality Education facilitators are high enough to meet the expectations of the students. They are always ready to Learn, Unlearn, Relearn. At RAI SAHEB we strive to make education relevant, meaningful and interesting so that our students are ready to meet the challenges of an ever changing global environment. We ensure that the inherent exuberance of our students is nurtured, nourished and made to bloom with a touch of modernity and tradition to create a cohesive, healthy and congenial ambience for teaching-learning. In short we want to make 'Education a Celebration' and not a burden for the students or a dreaded drudgery which one is compelled to undergo. I trust that RAI SAHEB shall continue to be a place for celebrating education and a place that helps students to be global citizens who rise above the narrow divides of society on the basis of creed, culture, language, caste and even nationality and cherish the values of humanity.

Our Vision

We recognize the imperative of imparting an educational experience that is world-class in every aspect and prepares children for global citizenship. We are a school with an Indian mind, an Indian heart and an Indian soul; a school that celebrates the culture of excellence and is an embodiment of values.

Our Mission

To provide a learning environment that encourages children to bring out the best in themselves and which supports their all-round development, through discovering the joy of learning, awakening and illuminating their intellect in multi-dimensional ways, and instilling abiding values in themselves.

Our Objectives

To provide a safe, secure and conducive environment in which each child can enjoy learning, dare to dream, achieve excellence and become a lifelong learner.

To offer educational programmes that support children's academic, moral, social and physical development.

To inculcate in children the values of empathy, compassion and respect towards others and the environment.

To make children aware and appreciative of their history, culture and traditions, while being open to other cultures and alternative views of the world.

To provide a local and global dimension in curriculum and pedagogy, which serves as the best preparation for further studies in the world's finest universities.

To provide learning opportunities and activities which appeal to children's multiple intelligence and which help develop in them multiplicity of perspectives and skills.

Our Curriculum

The four broad goals of education at Rai Saheb include the development of the inner and interpersonal self, scholarly development, active participation in a wide range of opportunities and creative expressions. To achieve these objectives the curriculum at Rai Saheb follows the principles of integrated education. Integrated education enables students to weave the development of their physical self with the development of their mind, the emotional, social and inner self to make connections between different forms of knowledge, self-development and creative expressions.

Formal and informal opportunities are provided for students to appreciate the relationships between inside and outside the classroom learning experiences. Linkages are made between the acquisition of languages and Arts, Science and Reasoning, Mathematics and Experimentation Creative expressions and Communication skills. Students weave in and out of academic classes and nonacademic classes that include the performing arts, the Visual arts, the Fine arts and Sports. With the support from their teachers, students identify pieces of the Jigsaw puzzles that constitute knowledge and personal development.

The outcome is the nurturing of the “whole person” who seeks to learn, to think critically, to relate, to create and to choose with maturity and concern for others. In other words, the development of the individual child who is in tune with his own thinking and creative self as he is with the development of the world around him.
